Subject:	Fw: Marshall Land Trails White Blaze Loop

Pete,

I finished up blazing the Marshall Land trail this AM Blue blazing the branch trails to compliment the two primary White blazed loops the day before. The connecting trail corridor to the Hampstead trails was blazed in Red as well as a trail segment in Atkinson Conservation Lands (ACL) (stopped at ACL boundary line) that would connect to the Stickney trail system. The trails in the Marshall parcel appears to be used and maybe maintained by bikers: trail motorcycles, mountain bikes and ATV's. These vehicles are entering at two points along Boulder Cove Rd. There at least 4 or 5 different painted blaze colors on trails throughout the parcel depending on what group is riding.

Along the primary loop trails in White I found 5 or 6 station posts as referenced in the "Marshall Trail Guide" prepared in 2002. I think things have change significantly since then. Plan to Blue blaze a trail branch off Hemlock Heights Rd as a third entrance point as shown on the AllTrails app and will check out some the station post descriptions, especially station 1...the granite Atkinson/Hampstead boundary line.

This finishes the trail blazing of the ACL (Marshall Trust and Slade Town Forest left for wandering) and will determine the best procedure to re-walk the trails for a smooth trace. Probably experiment with Sawyer trails since it is close...I think the pause button on the app should work.
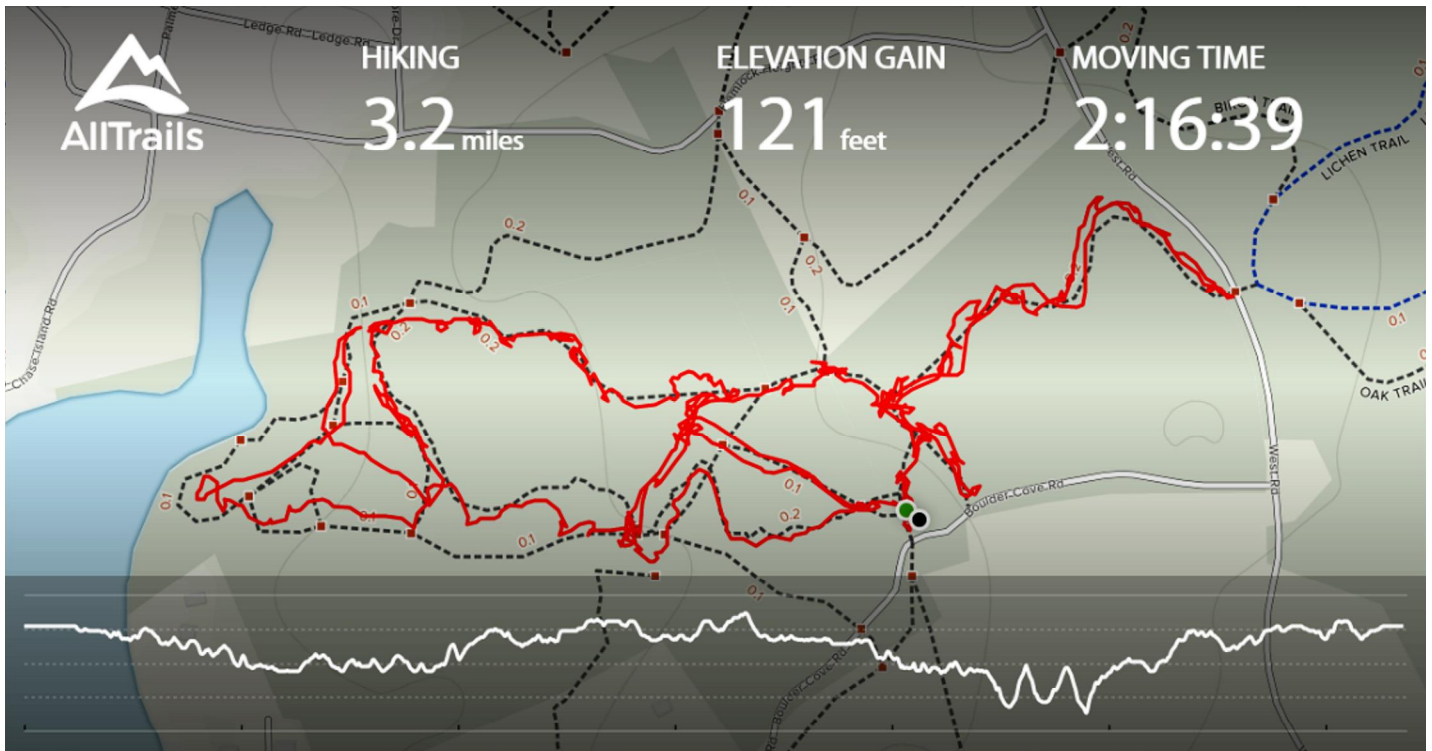

The Blue blazing of the Marshall Land trails will follow this e-mail. Click on the AllTrails link below the following map diagram for additional details.

Dennis
